# **COURSE STRUCTURE**

## **7 Studio Sessions. 7 Essential Skills.**

**Each session is carefully structured to introduce and develop one key area of DJing:**

- **Introduction to DJ Equipment – Learn the layout and functions of a standard DJ setup.**
- **Track Structure & Music Basics – Understand beats, bars, phrases, and genres.**
- **Cueing & Beatmatching – Manual tempo matching and syncing without relying on auto-sync.**

- **Building a Set – How to choose, organize, and plan your music selection.**
- **Live Mixing Practice – A guided practice set with instructor feedback.**

By the end of the 7 days, students will have not only gained confidence behind the decks but also developed a personal workflow they can continue to refine. Whether you're looking to DJ at private events, start your own mixes at home, or lay the groundwork for advanced training, this course is your launchpad into the world of DJing — with real gear, real guidance, and no shortcuts.**
